How we use personal data
We comply with our obligations under the GDPR by keeping personal data up to date; by storing securely and when necessary destroying it securely; by protecting personal data from loss, misuse, unauthorised access or disclosure; and by ensuring that appropriate technical measures are in place to protect personal data.

We use personal data on our database to store name, address, telephone number and email address only of walkers and volunteers and we use these contact details to inform of walk programmes, news, events, activities and services that we feel are relevant to our Healthy Walks programmes.
